RE: Accident reporting system

Dear Parents / Carers,

We are thrilled to introduce our brand-new accident reporting software, Evolve! Following concerns with the previous system, we have bought in 'Evolve accident reporting', which is currently being used for off-site visit risk assessments in our school.

The old software had caused numerous issues for our staff and parents, but with Evolve, we are confident that we can provide a more efficient and user-friendly experience for all. The system directly links to our Management Information System and can send parents an email letter notifying you of an incident as soon as it is entered onto the system.

We are currently training staff on the use of this new software, so please bear with us while we implement the system. During the transition process, if you have any questions or concerns regarding the well-being of your child, we encourage you to contact the school office and they will do everything they can to assist.

I would like to thank parents who reported issues to us; along with staff user feedback, this has been instrumental in driving change.

Kind regards,

Lisa Crossland
