

Happy New Year Thoresby Class!

As we draw to the close of 2020, we look back at what can only be described as a unique year!

First, I'd like to say thank-you to all the children. I'm so proud of every single child, they have all done an amazing job of settling back into Cuckney life and getting right back to it. Making such progress with their education.

This would not be possible without the supporting adults behind them so thank-you for making it possible.

The year so far, we have learned, we have had fun and we have even eaten cake! Much to my delight, as I'm sure your children will confirm. It may have been a little different this year. From socially distanced Christmas parties to sitting in rows for lunch, but your children have taken it all in their stride. In class, we have had great fun

making our own books to publish our 'Lost thing' stories; we ran lots of investigation to discover the likelihood of humans living on Mars; we have also created Boudicca sculptures and designed Mars rovers.

So next term, I hope you're excited for it so grab your wetsuit. We're going deep into an underwater world of incredible coral and mysterious sea creatures. It's time to go a little deeper into our seas.

What are those bright lights in the distance? Flippers on?

Snorkel ready? Let's head into the Blue Abyss. Our exciting new topic will allow the children to discover more about our Oceans and discuss the issues surrounding this.

In Thoresby class we are also beginning something just a little bit different from the end of January. Forest School!

We will be kicking off the year with some outdoor sessions exploring the world around us and adding to our outdoor skills.

These sessions will run outside in all weather so please be ready with appropriate clothing (be prepared for these clothes to get muddy!)—waterproof coat, wellies/ boots, warm garden clothes, hats, scarves and gloves—

Can't wait to see you in January
Miss Scrivener :)
