

English &

- Read the book "Funny Bones" if you have it.
- Write your section of this **all about me jigsaw**, connect it up with other people when you can.

Science

- Create a **lift the flap human skeleton labelling activity**.
- Create a **human life cycle activity craft**.

Maths +

- Use a measuring tape to measure the feet and height of members of your family or friends to check the following statement; "The bigger your feet, the taller you are." - Is this true? Why? Why not?

History

- Use a child friendly search engine such as kiddle.co to find out about the history of humans.
- Find the answers to the following questions - how long have humans existed? What were the first humans like? How have we changed/stayed the same over time?

Computing @

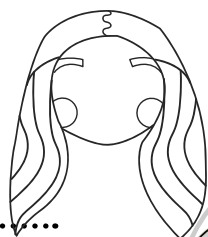

- Download a digital microscope app on a mobile device to examine your strands of hair, nails and skin.
- What do they look like? How would you describe them?

PSHE ☺

- Think up a song to help other children learn to stay healthy.
- Create a poster that helps other children to stay happy and healthy.

Art & Design

- Draw a self portrait - use a mirror to help you.
- Use playdough to create a human face. Use playdough mats to help you.
- Make one of our **'All About Me' posters**. Choose a template that best suits your personality!

THIS IS ME!
