

Holbeck Summer Holiday Project- Reception

When the children start school with us in September, our topic will be "All About Me". Over the summer holidays, we would like to invite our new children to create a poster all about them! This will form part of our very first class display and will help us, and the other children in class, get to know your child a little better.

There are no rules to our homework projects- the possibilities are endless and we like you to be as creative as you like! We'd like the posters to be larger than A4 if possible with lots of photographs, pictures and information. Your child might want to write their name and help you decorate it. You can add writing on the posters for them too. Some things you might wish to include are family, pets, favourites (colour, food, things to do etc), age/birthday, what they want to be when they grow up, likes/dislikes, hobbies- you get the idea! Attached are some examples to give you an idea:

Please bring your posters into school during the first week back so we can share them with each other and put them up for everyone to see. *(Don't forget all of our homework projects are optional)*

We can't wait to see all of your creations!

The Holbeck Team 😊
