

## Adult Guidance

- Children to work in groups and pass a wheel around, taking turns to spin the wheel and say the words they find.
- When they have read all of the words, can they swap their wheel with another group to read the words on a different wheel?
- Once the children know all of the words and what they mean, challenge the children to say sentences with the words in.

## Challenge

Can you say a sentence with some of the words you made from the **wh** Word Wheel?

It can be a silly sentence!

For example:

While the whale found his white whip, he let out a little whine.
