Holbeck Class- Science Tots

Dear Parents/Carers,

We are really excited to share that, as part of our extended curriculum offer, we have invited Nina Williams from Science Tots- Nottingham to provide some super fun weekly science sessions for Holbeck class this half term. This will take place in school every Friday morning, beginning this week on the 10th January. These sessions will continue for duration of 6 weeks.

Science Tots go above and beyond what we are able to provide in our regular classroom science lessons; bringing specialist equipment, resources, knowledge and WOW moments. These interactive, hands-on science experiments and investigation sessions allow children to apply their learning in a variety of really exciting scientific ways. They are an addition to our statutory science lessons, which will continue to be taught as normal throughout the half term.

Nina works with the school regularly and our Bigs may remember her from their Science Tots sessions last year and from our whole-school science week activities. All sessions this year will be completely new activities that they won't have accessed in any previous Science Tots sessions. Each session is 1 hour long and completed in smaller groups of 15 to allow each child to have dedicated access to all of the equipment and resources that Science Tots provide.

The cost for the 6-week course of sessions is £26 per child (just over £4 per session). Please log on to your Arbor account to pay for these sessions by Friday 14th February. If you have any problems with this, please don't hesitate to speak to one of the Holbeck team.

Friday 10 th January	Sensational Senses
Friday 17 th January	Wonderful Weather
Friday 24 th January	Spooky Science
Friday 31 st January	Kitchen Science
Friday 7 th February	You Light Up My Life
Friday 14 th February	Super Spring

We know that the children are going to get so much out of these sessions and really enjoy them. Keep an eye out on Tapestry where we will post all about it each week!

Many thanks,
The Holbeck Team ☺
