

Dear Parents and Carers,

We cannot wait to get started with all the fun in Holbeck class in September. Our first topic of the year will be....

All About Me!

As we usually do in Holbeck class, we set a half term homework projects that the children can choose to take part in.

This time, we'd like the children to help us to get to know them by designing and making a mood board all about themselves...it can simply be pictures of a few of their favourite things like food, colour, animal or place to visit. It would be really helpful to staff if it had a few family photographs on there of yourselves, any siblings and close grandparents, etc with their names on so we can talk to your child about those people, making those first conversations with us in school more personal to them.

There are some examples below, but please remember that there is no right way of doing this and from past homework projects we are pleased with the variety of results we've had in from the children...they are so imaginative!

We will use the projects as part of a big class display. Have fun!

Kate Coleman & Sarah Morton
