

Dear Parents and Carers,

We've had a wonderful year in foundation and we are SUPER excited to tell you that our new topic for our new academic year in Year One is...

SUPERHEROES!

As always there is a half term homework project that the children can choose to take part in. I'd like the children to research, design and make their own superhero lair...it can have anything; room for a batmobile, a place to do spiderman acrobatics, tonnes of the latest technology or a changing room to change into your superhero costume!

As always, I encourage the children be as creative and individual as they want to be. The children can simply draw and label their design or they can make it using a shoe box...there are no rules!

Whatever the result is, there is never a wrong project.

Have a super fun time!
